Also

Purpose of this letter is to say hallo to you also to send report of february 2009. Also all of us are fine, Lukia and Lahim are continue - good, also all the children continue good with - school, Adolphina start from one (1) at Malecela Secondary school since 19/febr, 2009, she is very happy, but she change the name, she want her baptist name "Josephina and the family last name is Kilawilo, so her name on that school is JOSEPHINA MEIHED KILAWILO. also - John steel to his grandmar, the village leaders says, they will talk slow to John grandmar - to live what she believe, and tell me that, to help John is very good thing but John is human - anything can happen to him, either - sick or death - So if we force his grandmar to take John without to educate her about what she believe, is not true and they have to be sure that she changes, before John come back to us, (they affraid John grandmar will judge us if any thing bad will happen to her grandson.) So im waiting their decision.

Thanks for today. Have good job.
It's me Emma.

The coast is for day school and bedding school, so she is in day school, but the coast, they mix together.
