Purpose of this letter is to say hello, also to send site - expenses, this month I pay only 800 for stamp, because last month at post office had only 6 stamp, equal to 2400 tsh, - so I was wrote 4000 in report but was left 1600^{tsh}. So this - month also I use stamp for 2400, so 1600 tsh was left to me that's why I pay for 800 tsh.

Also about John, I think we have to live him with his relatives, because his grandma she is very hard to understand. So there is one girl who a teacher at John from, says - she will take care of him, so he have to stay with his grandmas, but after school, he will go to that girl to have - food, lunch and dinner everyday, but she says she will not be responsible for school or clothes, only for food, because she feel sorry for him to be safer again with hungry, also she says, she ~~think~~ ^{think} this old woman, she is not normal in her head, also she says John will not get education because no body can pay for school and clothes for him.

Also Lucia brother was coming, and say, he will take care for - Lucia too, he will pay for two last school fees for her sister, because he need Lucia to help his wife after school, because she have a baby twice, also he thanks very much for the help of her.
